1. The health spending projections were based on the National Health Expenditures released in January 2012. The projections include effects of the Patient Protection and Affordable Care Act.

2. Research and development expenditures of drug companies and other manufacturers and providers of medical equipment and supplies are excluded from research expenditures. These research expenditures are implicitly included in the expenditure class in which the product falls, in that they are covered by the payment received for that product.

Note: Numbers may not add to totals because of rounding.
